## GLOSSARY

[View Full Glossary](#)

- **First Owner**  
When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.
- **Ownership History**  
CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

**New Car Test Drive Review**

NewCarTestDrive.com

**Category:**

Summary:

**Review:**

**Three rows of seating for the biggest Mercedes SUV.**

By Larry Edsall, NewCarTestDrive.com

The full-size Mercedes-Benz GL-Class SUVs are larger than the mid-size M-Class. The GL provides more car-like dynamics than the traditional, full-size, body-on-frame SUVs from other automakers, yet can tow big trailers.

NewCarTestDrive.com contributor Larry Edsall filed this report from California's Napa Valley.

**Overview:**

The 2008 Mercedes-Benz GL is the company's biggest SUV, a seven-passenger, full-size sport utility vehicle. For 2008, a GL550 with a larger engine joins the Mercedes-Benz GL320 diesel and Mercedes GL450 gasoline models.

Large and luxurious, the GL-Class full-size SUV is built in the United States alongside the M-Class mid-size SUV and the R-Class touring wagon. The GL is designed to appeal to Mercedes-Benz sedan owners who want the off-road, seven-passenger, and 7500-pound towing capabilities that come with a full-size SUV along with the luxury and safety features they have in their other Mercedes vehicles.

While their names sound similar, don't confuse the new GL-Class with the venerable G-Class or Gelandewagen. The GL shares nothing in common with the utilitarian G-Class. The GL-Class shares its basic platform with the ML-Class and R-Class.

The Mercedes-Benz GL-Class is large and capable off road yet feels surprisingly car-like on the road. That car-like feeling comes in part because it is built around a unibody architecture instead of traditional body-on-frame construction. Mercedes says the GL is strong enough to tow a 30-foot boat, a trailer carrying three horses, or a large travel trailer, but verify tongue weights and ratings before making decisions. All GL-Class models come with a seven-speed automatic transmission and four-wheel drive. All seat up to seven people.
